

# Edric Choo Poo Liang

Architect

Director & Principal

O2 Design Atelier Sdn Bhd

---

Born in 1976, Edric Choo Poo obtained his B. Arch from University of Malaya and B.Sc. Housing Building & Planning from University Science of Malaysia.

He has **traveled around the world** including, China, Japan, India, America, France, Finland, England, and Germany.

He started his architecture career under a few renowned architecture firms including **TR Hamzah & Yeang, ZLG Design, RT+Q, W Architects, SCDA, and WOHA.**

**He is the founder and director of O2 Design Atelier (O2DA).** The studio is based on the model of creative industries. O2DA's works are not restricted to a specific style but rather responds to the nature of the projects, contexts, local culture, social behavior and formal architecture language.

**We believe climate change is a very important issue.** Each project is the result of a meticulous, in-depth design process rather than a preconception of an end result.

**O2DA explores integrated designs for the built environment,** moving between master planning, architecture, interior, landscape, and furniture design.
